ADDITIONAL INFORMATION ON PLANTING CHARGES AND ACCESS LIMITATIONS

With truck and tree spade access:

- Most trees can be planted in spring, summer and fall.
 - All our trucks are 8' 6" wide.
 - 42" truck mounted tree spade requires minimum width of 10' for access clearance. 12' if driving between houses. Digs trees up to 4" (caliper) trunk diameter.
 - 65" truck mounted tree spade requires minimum width of 12' for access clearance. 15' if driving between houses. Digs trees up to 6" (caliper) trunk diameter.
 - 90" truck mounted tree spade requires minimum width of 12' for access clearance. 20' if driving between houses. Digs trees up to 9" (caliper) trunk diameter.
- **Add an additional 4% per km to planting charges, beyond the 15km radius of our tree farm (Stouffville). Tree price does not change.**
- Planting charges include topdressing trees using triple mix, mulch and staking when necessary.

When truck access is not possible:

Effective September 1, 2015, and until further notice, we will no longer plant trees in backyards unless we are able to access the backyard with our truck spades.

We will supply & deliver trees in baskets to curbside using our crane truck if you or your landscaper wish to plant the trees. Keep in mind the smallest tree (3" caliper) we sell will weigh 600lbs. A 40" wide tree dolly is available for your use, \$200 deposit required, fully refundable when tree dolly is returned to the farm, \$100 refundable if we have to pick it up.

Larger trees will require a skid steer to handle the trees.

Trees in wire baskets can only be dug and supplied in early spring and fall.

We do not supply trees in baskets during the summer months.

Warranty Terms

All trees purchased and installed by Stevens Large Tree Sales are guaranteed for 2 years from date of invoice (1 year if we only supply the trees). Additional charges may be required if conditions have changed from original installation (e.g. access due to fences, buildings and other obstructions). In no case shall Stevens Large Tree Sales be liable for the loss or damage to trees caused by wind storm, hail, lightning, fire, lack of water, excessive water, road salt damage, contaminated soil, vandalism, or malicious acts. Warranty is void when surrounding grade level is raised higher than the level that the tree was planted.
